

SNK LOGISTICS cc COMPANY PROFILE

HISTORY

In the heart of the bustling transportation industry, SNK Logistics cc is a Trucking and Logistics company based in Kwazulu Natal.

The company was registered in 2008 however it has been in existence/operational since 2005 and is now a level 1 BBBEE accredited business and a recognized service provider in the Transport Sector which services a Blue Chip client base.

The CEO, Mr Sugen Naidu started his career in the Transport Industry in 1993, working for Express Cargo and Turners Shipping and this is where his passion for heavy equipment and machinery set in and thereafter he joined Green Africa Shipping in 1994 and worked his way through the shipping Industry after reaching his goal of becoming Depot Manager of Green Africa Container Depot 2 where he had gathered all of his knowledge and expertise and used this to open up his very own business, SNK Logistics cc.

Mr Naidu purchased single diff trucks and single axle trailers where he concentrated on moving Empty 6m and 12m containers locally either from Depot to Port vice versa or empty containers being placed for stuffing/packing.

As the business progressed, Mr Naidu had a different vision and slowly started to diversify the business as the movement of empty containers became very challenging due to Port issues and turn around of trucks therefore he ventured into purchasing a double diff MAN truck and a new Henred Slider trailer and this is where the transition from empty container movements to laden container movements started locally and he eventually phased out/sold off most of single diff trucks and replaced them double diff trucks.

The transition took many years and faced many challenges, obstacles and hurdles along the way like any business will do and we at SNK Logistics continue to swim with the sharks in deep waters in these rough seas!

ABOUT US

At SNK, we take pride in our strong relationships with our clientele, and one such exemplary partnership is with Stacor Petroleum. Over the years SNK has experienced significant growth and success alongside Stacor, our valued client. Through collaborative efforts, innovative solutions and a shared commitment to excellence we have been able to achieve remarkable milestones together. The synergy between SNK and Stacor has not only fueled our own growth but has also contributed to the success and expansion of Stacor Petroleum's operations today. This enduring partnership stands as a testament to our dedication to delivering exceptional logistics services and fostering long term, mutually beneficial relationships with our clientele.

In 2015, the CEO made a strategic decision to transition the company from local to a long distance work model. The decision to offer long distance trips has been instrumental in the growth of our company. It has helped us establish a stronger foothold in the market, differentiate ourselves from competitors and position our company as a trusted provider of end to end logistics solutions.

This strategic move has allowed SNK to tap into new markets, build lasting relationships with clientele across different regions and drive revenue growth for our business. SNK has stood firm over the years overcoming several challenges such as COVID, KZN July 2021 civil riots & unrests and then KZN catastrophic April 2022 floods. It is clear that SNK has faced numerous challenges over the years and we have navigated through turbulent waters to have emerged stronger each time!
